

Bikes and Equipment

Fellow Velo Bikes and Equipment

All of our Fully Guided and Self-guided tours are priced with inclusive bike hire. We have a small fleet of bikes specially selected to match our cycle tours. Our core bikes were supplied by our local independent bike shop, where we were customers for over 25 years.

They are mainly all terrain/hybrid bikes (but road bikes are also available) with;

- at least 21 gears,
- disc brakes front and rear,
- a comfortable gel saddle,
- a bell and a water bottle,
- a lock,
- a fitted handlebar bag,
- a fitted rear rack & pannier and,
- basic lights.

Each cycle tourist, couple or small group is also provided;

- a pump,
- a spare inner tube,
- a puncture repair kit and,
- a tool kit

We have a small number of e-bikes which can also be booked as part of your tour. You still have to pedal for yourself but, the assistance they add means that some customers gain that added confidence that increases their enjoyment and, ability to explore a little further or higher than they thought might be possible. There is a supplement for e-bikes of c.£150/week.

We can supply other alternative types of bikes (children's

bikes, higher-end road bikes, tandem, additional e-bikes etc); if these are outside of our own fleet, we hire directly from a specially selected local provider. If you want bikes that are not in our own fleet then, there would be an additional cost (and usually a refundable deposit to be paid to the hire provider) but, we would also make a reduction on the quoted tour price which will off-set some of that additional cost.

At the time of booking your holiday we will collect all the details we need to make sure that we reserve you the correct

sizes and specifications for your bikes. We will also include children's bikes, tagalong bikes and specialist child seats when required. If you need any other special or mobility cycling equipment then, please just contact us with the details and we will do all we can to meet your needs.

When we use bikes from a third party bike hire supplier, we will ensure that these bikes are equally suited to the tour you have selected.

We recommend that cycle tourists use helmets on all of our tours however, for personal hygiene reasons, we ask you to bring your own along on the ride or, we can source a new one for you locally. On our Fully Guided Cycle Camping tours, we will provide your tent, basic camping mat and all the other camping equipment, except the sleeping bag. You could also bring a self-inflating camping mat for a little more comfort and, we would add that to the luggage we transport for you.
