Provence – "Land of Dreams"
Provence has so many options for great cycling adventures, so much so that it can almost make it difficult to choose where and what to explore, especially if your way is only a tad off. However sometimes, you will find that peaks of the seasons will just make it impossible to ignore a particular experience, and so it was for a young American couple who came to Provence in early July. They had booked a 5-day day tour at least about a year, it was going to take them 5 days to see a more hidden rural landscape through small villages and upwards and over quiet wooded hills to the sea. With the itinerary pretty well in place there was just one last question – "will we be able to see the Lavender Fields?" Luck was on their side as the fields of the Varaisse Plateau were in near full bloom and, we were able to add a short guided ride through fields of the bestest ones, well away from the standard Lavender trails.

(Provence Provence Continued)
In their Lavender Field Collage, some of the photos have been enhanced and naturally has been an avoided bit of the scene – that's just how it was on the day.

Our Bespoke Tours are just that: we aim to blend people's dreams of a kind of cycling heaven, with our own intimate knowledge of the landscape that surrounds us. Obviously, the more time we have to build a package just for you, the more likely that we can deliver all the things that you'd love to include (and perhaps a few that you didn't even know were possible).

So, if heading your eyes on lavender is full bloom, seeking out the wonderful scenery and listening to the amazing symphony of the bees in an experience you want to share then, don't be afraid to plan a little further ahead than our American couple. It may all have disappeared for this year but, the lavender will be back next summer and you too could be riding that trail.

The Lavender Fields addition is just one of many elements that we can include to expand on our standard tours. We could design an individual tour for you that is based around a local calendar of Provençal markets or, it could be an easy going guided off-road trail between vineyard wine settings.

Planning ahead also means that you can take your pick from the very best of the available accommodation and, aimed certainly for the very best price as well.

Fellow Velo will be back at the France Show at Olympia next year 27-29 January. Come and see us for a chat over a cup of wine.

THE FRANCE SHOW 2017

Human Safety Cone
France has such a great network of quiet lanes, you can explore so many areas intimately with miles and miles of almost traffic free roads but, there's absolutely no harm in thinking about your own safety whenever you are cycling. Your neck may amend your cycling form but if you feel safe, you'll ride happy.

My man, the Human Safety Cone
