Spring – It's not just about the bikes! Newsletter Issue: May 2021

Spending Money in France
"Moi, j'ai fait le can-can un samedi"
Elyse, Texas

It really is starting to feel like spring has arrived and, after an understandably quiet 2020, we are beginning to look forward to a better and brighter 2021. We have been getting in plenty of local video and, while we're riding along, what has been coming to our frequent thoughts for this summer in France. It often ends up remembering about welcoming customers and that usually leads us much to their adventures and experiences "off the bike" as much as "on" the saddle. A great cycling holiday is so much more than an extended bout of exercise. For Fellow Velo customers, it's getting along the trail, interacting with staff, parking up a bike to take a rip in the sea, wine-tasting at intimate independent vineyards, strolling in a beautiful and varied landscape, eating drinking and shopping (using extra bags for their purchases is more common than you might imagine). If you want to "take a memory of your dreams", we'd love to help... In the meantime, we'll just let the pictures speak for themselves.

Of course, the bikes still enjoy the adventure too ...
